# RICHMOND POLICE PLACE HOLD ON ALLEGED "BOGUS CHECK KING"

## The CORE

Paul Claudel, new French Ambassador, to the U. S., last night declared that French diplomacy has only one aim: lasting peace.

Hearing in the \$50,000 alienation suit against Harry Stutz, former auto manufacturer, by Herbert J. Mueller, went to the jury late yesterday in Indiana.

Despondent because her 18-year-old boy friend is in jail in Woodstock, Ill., on charges of larceny, Mary Kerr, 14, shot and wounded herself seriously yesterday.

A temperance lecture printed on blotters and distributed to school children was barred from Evansville, Ind., schools yesterday.

Mrs. Grace Elliott paid up alimony and attorney's fees yesterday in Los Angeles, after being haled into court on contempt charges. She had been ordered to pay her husband \$150 temporary alimony and \$100 attorney's fees.

The giant Fokker plane, Southern Cross, which will attempt a flight to Australia next month, arrived at Mills Field, S. F., yesterday.

Roger Williams, former Navy flyer, will attempt to break the airplane endurance record set by the Junkers, of 52 hours, 23 minutes.

Three attendants keep constant watch on George Remus, on trial for murdering his wife, as he conducts his own case in Cincinnati court. Insanity is the plea of the defense.

Indictments in alleged tampering with the Teapot Dome trial jury are expected within 24 hours.

## TRAIN CRASHES AUTO IN FOG

In the dense fog shortly after midnight last night an Oakland-bound Southern Pacific train crashed into an automobile at the crossing near Twenty-third and Esplanade.

The driver of the car was not found and it is believed that he jumped before the train struck the machine.

According to the registration card found in the machine, a touring model, the car is owned by Andrew Bell of Adeline street, Oakland. It is believed that the driver lost his way in the fog and after driving down the track a distance, abandoned the automobile.

The force of the collision completely wrecked the automobile and broke the heavy bars of the pilot on the engine.

H. Walker, engineer, of 3036 Fifteenth avenue and F. A. Thompson, fireman of Tracy, who were in the cab of passenger train No. 61, when the car was struck, declared that it was too foggy to see the car until the engine struck it. There were no signs of blood in the car which was dragged a distance of several blocks, and for that reason it is believed that the driver was uninjured. The engine was derailed.

## HOW MONEY GROWS

It is really wonderful how interest, added to regular deposits, even though they are small, counts up. The attractive interest now paid by Building and Loan Associations, which are under state supervision and as strong and safe as anything can be, offers unusual opportunity to those who want to get ahead. For definite information consult the Buyers Guide on the classified page.

## OVER HUNDRED ALIASES USED IN ACTIVITIES

Operations in Richmond Credited To Suspect Held In S. F.

J. Foster Peck, Jr., reputed to be the "bogus check king" hunted on the Pacific Coast for the last two years for depredations which have included hundreds of cities and towns and netted thousands of dollars, is in the San Francisco City Jail, and Richmond authorities have placed a "hold" on him for alleged operations in this city.

A "short story writer" de luxe with a penchant for hanging paper in such expert style that the combined efforts of the American Bankers' Association and police authorities have failed to net him, the fictitious check mogul is believed to have operated in the east bay district for the last week. A Berkeley merchant was defrauded of \$20 last Saturday; yesterday his operations are said to have shifted to San Francisco.

Peck was arrested in that city in a Geary street apartment house on a charge of passing a \$20 check on the Sutter Hotel. Detectives claim that he left Los Angeles owing a bill for \$930 and he was once before arrested in San Francisco for a similar offense, and once in Vacaville on the same charge.

Nearly 140 aliases are said to have been used by the mysterious forger, and 200 bad checks are credited to him.

A son desiring to cash one of his father's checks in order to purchase a gift for his mother, is said to have been the story told by the forger to his victims.

## Woman Sentenced For Operation

MARTINEZ, Nov. 15.—Mrs. Madeline Pino, 70, admitted first in Justice Frank L. Glass' court yesterday afternoon and a second time in the court of Judge H. V. Alvarado that she had performed an illegal operation on Mrs. Mary Cabral, 20, who came to her for treatment when she discovered that she was to become a mother a second time.

Immediately upon being held to answer to the higher court Mrs. Pino went before Judge Alvarado for arraignment and entering a plea of guilty asked for sentence immediately. She was placed on probation for five years. Instruments found in her home on Alhambra avenue at the time of her arrest were confiscated by the authorities.

## County Survey On Vocational Work Planned

A vocational survey of the entire county, brought about largely as a result of recent discussions at teachers' meetings, will be begun soon, according to announcements made yesterday.

**COOPERATIVE PLAN**  
The enterprise will be a cooperative one between the schools and industries of the county and has as its specific purpose determination of what instruction should be provided for pupils who expect to enter business, agricultural or industrial pursuits. The information obtained will also serve as guidance for college preparatory students, it was declared.

**VAN VORIS DIRECTOR**  
W. T. Van Voris, principal of the Alhambra high school of Martinez, has been named director of the survey and will act as chairman of the central committee.

The survey has attracted considerable interest among the educators of California, both because of the diversity of industry and agriculture as represented in Contra Costa and because of the central survey committee.

## Business School Chief Talks To Exchange Club

Choosing as his topic: "Training for Business," A. Armstrong, head of the Armstrong College of Business Administration of Berkeley addressed the members of the Richmond Exchange club at their dinner in the Hotel Carquinez last night.

He praised service clubs for the help they have given in modernizing business and contrasted the present methods in business with those of thirty years ago. He declared that a complicated and well grounded training was now necessary to enter the commercial field. Four phases of present business departments, finance, production, distribution and management, were discussed by the speaker. The meeting was one of the largest held by the newly organized service club and was attended by a number of visiting members from the Berkeley Exchange club. Henry Sollo was chairman of the evening.

## Former Richmond Matron Injured

Struck by an automobile while attempting to board a street car near the county line, Mrs. Julia Westling, former resident of Richmond, was seriously hurt and was removed to the Fabiola Hospital in Oakland.

Waldrop then declared his own ballot, recorded it and prepared a return to the board of trustees.

Richard Kevern and his wife, Nettie, tract residents, but not voters because of insufficient residence in the district, aided Waldrop in conducting the one man election. Kevern acted as inspector and his wife as a judge while Waldrop performed the functions of the second judge on the election board. The garage of the Keverns' home was the voting place.

Waldrop is an employee of the tract owners, who petitioned for annexation.

## ADDITIONAL 40 ACRES BOUGHT BY DOHENY CO.

Site On Deep Water To Furnish Locale For Huge Shipping

With the acquisition of 40 additional acres to the holdings of the Petroleum Securities company on the Richmond waterfront, the Doheny interests have made provision for whatever expansion the growth the company here may require in the future.

## ON DEEP WATER

The new tract of land consists of two 20 acre tideland parcels immediately adjoining the 175 acres purchased from the John Nicholl company, in the Potrero and labelled on the map of the City of Richmond as "H. G. Meyer" and "A. C. Crooks." The new purchase brings the holdings of the oil company to deep water, accessible to ocean going steamers of any draft.

**INTENDED FOR SHIPPING**  
From this last purchase it is conceded that the oil company will erect docks and shipping facilities at this point when the distribution plant for Northern California has been begun operations.

**STRATEGIC ADVANTAGE**  
The strategic advantage of this 40 acre purchase is evident from an examination of the map, which reveals the oil company as one of the largest holders of property on the harbor. The holdings now extend from the waterfront tidelands on the south to Buena Vista avenue on the north, and from Richmond avenue on the east to Garrard boulevard on the west. It is predicted that the three and one-half acre tract leased from the city of Richmond at Municipal Wharf No. 1, will in the future be utilized for the administrative buildings of the oil concern and that shipping activities will be focused at the point, purchase of which was announced yesterday.

## INDUSTRY CONCENTRATED

Under this arrangement the pipe lines of the company will be located at a minimum of distance from the tanks on the hills in the Nicholl tract, and the industry will be concentrated in a direct line for shipping on deep water. The deed from Amanda C. Crooks was recorded yesterday in the office of County Recorder F. Irene Hurley, and the Contra Costa Abstract and Title Company handled the transfer for the Doheny interests.

## Disasters Bring Realization Of Importance Of Red Cross

William Wallace Campbell, president of the University of California recently stated regarding the Red Cross: "We have no organization in the world more idealistic in its aims or more efficient in its accomplishments than the Red Cross. I would rather belong to the Red Cross than to any other organization in the world."

Among other important endorsements, is Will Rogers' who says: "The Red Cross is the only thing I can think of in American that we could not possibly get along without."

**LABOR SUPPORT GIVEN**  
William Green, president of the American Federation of Labor has urged "every worker who can possibly do so to join the Red Cross." His letter follows in part:

"The American National Red Cross is asking the people of the United States to increase their membership in the Red Cross for 1928 to five million so that it may meet adequately the increased demands upon its services. We know that in the last year the Red Cross has met its greatest test in peace time relief work in the Mississippi Valley. For months we were thrilled by the speed, precision and competency with which it performed the tasks of rescue and relief. Few realize, however, that simultaneously with its tremendous operations in the Mississippi Valley the Red Cross also administered relief in fourteen additional disasters in eleven states, all of which called for Red Cross assistance of a substantial character. The American Federation of Labor has confidence in the Red Cross. It is in sympathy with the service of this great democratic organization. It has supported it gladly in the past. It will continue to express its faith as need requires. I urge our affiliated bodies to support the local chapters of the Red Cross in their membership enrollment."

## FORGOTTEN GOVERNMENT BONDS

Knowledge that the Treasury has grown somewhat uneasy as to whether a very large amount of the Second Liberty bonds may not fail to be either converted or presented for redemption on November 15—this notwithstanding interest payments cease on them at that time—has caused inquiry in Wall Street as to how great an amount of other bond issues matured long ago are still unaccounted for. The Treasury's statement of last June showed that \$45,518,122 of matured government obligations on which interest had ceased were still outstanding. In the last complete annual report it was shown that \$2,324,500 of matured pre-war bonds had not been presented at the Treasury. This total included \$285,660 of bonds issued during the Civil War, many of which had matured more than half a century ago. It also included \$151,610 United States bonds of issues so old they had matured for payment before the Civil War. How much of these amounts represented bonds which had been lost or destroyed and how much, if any, bonds which had been forgotten by their owners, the Treasury had no information.—*New York Times*.

A Michigan man was sentenced to prison for life for possession of a pint of gin, it being his fourth law violation. He will not have ample time to meditate on what the governor of North Carolina said to the governor of South Carolina.

Weather forecasters predict an early winter because the Long Island ducks are flying south sooner than usual. Maybe they are going out to do a little missionary work for Al Smith.

It is significant to note that the British and French governments have sent word to the Bulgars and Serbs to tone down their war talk. What do they mean by stealing the League of Nation's stuff that way?

## How To Earn Money!

Of the many, many letters I get from people of all trades and all talents, there is the same note running through each one. It is the spirit, the hopefulness of the writer. Housewives and business girls and men who are handicapped by the ordinary kinds of work, and those who need extra money for the growing family—each one of them writes with pluck and determination. They are eager to do, and they write to ask for suggestions or just to "talk it over" in a clear, business-like fashion. I have no complaining letters in my mail. Some are a bit discouraged, yes, but that is only for the moment—they will fight their way back to happiness and peace. I am glad to help people who are so fine and brave in the face of misfortune; it is a privilege and a pleasure.

I would like to become a writer, but I have little training for it, which does not do me any good.

I know of no school for training writers except the hard one of experience. I advise you to apply to the employment agencies for a position, and to practice at home, carrying trays, remembering orders, and putting out chairs for people as they sit down. If a waiter is attentive and courteous he will make a good impression and deftness in serving will come with practice.

Please tell me about the position on boats. I have heard one can get good paying positions on the ships going abroad. I have been doing clerical work for some time. Is it possible to obtain a position in that line on the big steamers? Also, could I take my mother with me? R. G.

If you are a good sailor, I think you would do very well to secure a position on one of the big liners. They do employ clerks, but many of the big ships engage their entire staff at the "home port." So I suggest that you try the American lines first. I think it would be impossible for you to take your mother with you, unless she worked in some capacity, as stewardess, or unless she paid her passage.

## How About Furs?

Winter's Near

With the raw blasts of winter just around the corner the thought of soft, warm furs brings each day a more and more irresistible appeal.

"And what are the new fur coats like?" one asks.

The smartest fur coats are made along conservative lines and designed to last out several seasons. Nowadays there is virtually only one silhouette for the fur coat—the slender, wrap-around type combining practically with chic.

Variety may be supplied by clever manipulation of the fur, the combination of two kinds of pelts or the cut of collar and cuffs.

The smart pelts for sports and general wear are muskrat, pony, goat, caracul, and similar skins.

For dress and semi-dress wear, mink, seal, broadtail, squirrel, seal, kid caracul, sable and baby lamb are among the favorites.

It is never wise to choose an extreme fashion in fur coats, unless one feels able to afford a new one each winter.

## What Your FACE TELLS

©c.1927- by Betty Morrison PSYD.

The delicate, tapering hand is the psychic hand.

If you ever shake hands with an individual possessing this hand, you will never forget it. This delicately formed hand, tapering to a narrow point, has been named the psychic hand. Finely molded nails, square at the base, tapering at the tip, it tells of an individual high in spiritual qualities, far above the materialistic sphere. Mental work-

ers and those whose achievements are imaginative, frequently have the psychic hand—poets, artists, actors, dreamers of fancies, musicians.

The psychic man or woman is extremely sensitive to vibrations, easily hurt and suffers keenly. Children of this type take punishment too much to heart. They are too close to the world of fairies to be dealt with harshly. Individuals who have the psychic hands are suited particularly for fine detail work. Such fingers can use a type writer, or play the piano and strangled instruments well. If forced into manual labor, they will be unhappy, and fall in their work.

## Laundry Hints On How To Make Clothes Wash White

Dear Mme. Hall-Drane—

I would appreciate any laundry hints you may have to offer, as I have decided to do my own washing in order to help my husband.

He has been a wonderful provider, but I have suffered great business losses in the last few months, and I must be economical until he gets back on his feet again. I have never done work of this kind before and know very little about it.—MRS. T. R. C.

Borax is one of the best cleansing substances known. There can be no surer way to preserve the healthfulness of the home than by a free use of borax, which cleanses, deodorizes and disinfects. A teaspoonful of powdered borax in the bluing water whitens the clothes perceptibly.

Buttermilk will bleach clothes. Soak them several days in buttermilk, then wash, boil and blue in the usual way. After the boiling the clothes will be of the traditional snowy whiteness.

Coffee stains on white goods should be washed in warm water before placing in the suds. Ink stains on white goods can be removed by soaking in water and then covering the spot with salt and lemon. Bleach in sun for half an hour, wash in suds, rinse and dry. Bright, sunshine will often remove scorch which has been made by using an overheated iron.

Tea stains and mildew are readily removed from white goods by the use of chloride of lime. Dissolve a tablespoon of lime, strain through a piece of cheesecloth into one gallon of warm water, dip the stained parts in the solution, let them remain half an hour, then wash as usual.

Fruit stains can usually be removed by stretching the discolored parts over the top of a pail and pouring boiling water over the spots.

Unbleached muslin and garments that have become yellow from lying unused can be bleached without the least injury with chloride of lime.

Wringing tablecloths, napkins and towels by hand through the hot water on wash day makes them easier to iron than if put through the wringer. The creases which the wringer makes are very hard to iron out of anything made of linen.

Fold your clothes as you take them from the line, they will iron much easier. A whisk broom is a handy thing to use in dampening clothes. The main thing is to dampen them evenly.

Fringe should be lightly shaken out when hung to dry. Some do not iron the fringe at all, but after the article is ironed, the fringe is gently straightened out with a course comb. The comb should be used in either case.

Beeswax and salt will make

rusty flatirons as smooth as glass.

When the irons are hot, rub them with the wax tied in a bag, then with a paper sprinkled with salt. If the irons are only rough, rub them with salt.

Iron colored clothes, cotton or woolen, on the wrong side when possible. Never fold napkins fancifully, but always true, and with the initials or other decorations outward. The latter mention applies also to handkerchiefs, towels and the like.

To have cheese cloth, scrim or lace curtains retain their creamy look, add a small quantity of saffron tea to the water in which they are rinsed.

Woolen goods should never be dried out of doors in freezing weather, but in a room of about the same temperature as the water in which they were washed.

C. T.—You can make a very attractive evening frock by combining velvet with tulle. The two-yard length of chiffon velvet which you have on hand will be quite sufficient. Make a long, molded bodice of the velvet, and use soft tulle ruffles for the lower part, or skirt, which should be long in the back and short in front.

Since you are tall and slender a gown of this type should prove remarkably becoming to you.

## STYLE IS ESSENTIAL

The word of fashion is cosmopolitan, and style recognizes no geographical boundaries. For here is an authentic fall vogue of silk plaids, Scotch in source, but Parisian in spirit, and woven on American looms.

Following the trend for street effects in printed silks introduced by Cheney in the trotteur designs are the "Tartannes" a delightful group of plaids, ranging from plaids in rich dark colors, simulating the tartans of the clans, to bright-hued plaids on light grounds, and on sport silks, from chic taffeta plaids to tiny miniature plaids, almost blending into an all-over design at a short distance.

There is, in a word, a plaid for every personality; and the possibilities of these "Tartannes" for the couturier in developing ensembles, sports costumes, blouses, scarves and hats are unlimited.

The "Tartannes" are printed on crepe or Cindarella, on Frostdrop and on Ganymede; and especially in the last two fabrics are particularly happy for sports fashions. The range of designs is so wide, however, that every type of dress is provided for.

A Warwickshire man the other day climbed to the top of a church steeple, a height of over a hundred feet. It is really remarkable what some pedestrians will do to avoid motor traffic.

GOOD MANNERS

Q. When should hotel attendants be tipped?

A. Porters are tipped when luggage is received and taken away. The chambermaid is tipped on the final day of your stay. Waiters are tipped at each meal in the dining room or for bedroom service. Bellboys are tipped as services are rendered, such as the delivery of ice water, telegrams, parcels, and so on.

Q. Should a married woman use her own Christian name or her husband's name when writing to strangers. Should her signature be preceded by the word "Mrs."?

A. "Mrs." or "Miss" should be used in parentheses only. Your signature is for instance, "Eleanor Bates Brown." "Mrs. Edward T. Brown" is your address name. When writing to strangers it is well to put your address name in parentheses beneath your signature. It is a breach of etiquette to sign a letter, "Sincerely yours, Mrs. Brown."

To the time of an old-fashioned waltz, I was dutifully dancing with an old friend of mother's at a little home gathering. After having danced for quite a while she asked me whether my arm wasn't tired from the prolonged extension. "Oh, no," I returned politely. "I'm used to holding dumbbells in school."

## STRICKEN SUDDENLY

Almost daily we hear of it—the story of some man, probably a friend, suddenly cut off in the midst of his usefulness, in the very prime of life. That's what high blood pressure and heart trouble will do—snap off life without warning. All due to our abnormal living habits which put too great a strain upon the vital organs, especially the liver. The liver becoming weak and sluggish fails to cleanse the blood of the poisons formed in food waste. The whole system then becomes toxic, with stomach, kidneys, heart and blood vessels affected. The liver, especially at middle life, needs a little help, and there's nothing better for this, as physicians today know, than a little ox gall. Ox gall is a great natural stimulant for the human liver, promoting its normal active functioning, so essential to health and vitality. Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing 10 drops of pure ox gall. They cost less than 2c each at good druggists, and one or two days' use will prove a revelation. To be sure of getting the genuine ox gall, ask for Dioxol.

## More Progress For The Eastbay

ORGANIZED motordom's progress in the Eastbay was emphasized yesterday by the opening of the new home of the California State Automobile Association located at Grand and Staten Avenues in the Lake Merritt district. These pictures show the entrance to the building, an artistic structure of Spanish-Renaissance design, and scenes at the formal opening yesterday. Top V. A. Moore (seated), Eastbay district manager, is showing a group of Automobile Association officials how the organization has progressed in the Eastbay; left to right, Senator Arthur H. Breed and Joseph Knowland, publisher, both of whom are directors of the organization, Fred C. Dewey, Jr., field secretary, and P. J. Walker, another director. In the lower picture Senator Breed is congratulating Knowland and Miss Amy Hobson of the Association's staff on the new headquarters building.

Don't Be A 'Company' Beauty  
But Be Neat Always, Girls

Are you a "company" beauty or a home "beauty"? By this I mean, do you spend your time at home, lounging around in slovenly, untidy, clothes only to emerge to the outside world a fashion plate of charm and beauty?

If you do, then you're only a "company" beauty—like a little girl, who asked her mother when a guest was coming to tea whether she had to put on her "company manners" or "act natural."

Every girl ought to make her company manner her natural manner. I would be willing to wager that 25 per cent of the unhappy marriages are that way because the girl forgets that a husband is a 24-hour-a-day proposition instead of a three hour date twice a week.

**Keep Trim Always**  
Have you ever watched the girl friend "doff" up for the boy friend? Have you ever noticed her shrieks of horror if he arrives too early and finds her still in curl papers? That was a secret she hadn't planned to break until after the wedding.

There's another old one about the groceryman who didn't recognize his lady client when she came into the store in the afternoon. He had only seen her in the morning when he delivered groceries, and the war paint made too much of a transformation.

There's a lot of truth in all this, and it takes a really beautiful girl to pass the "before-breakfast" test. But it's a test of happiness when wedding bells are being considered.

Don't get into slovenly habits at home when you aren't on dress parade. Remember that habits you indulge in when you are alone are those you will soon fall into even when "company" is around.

I have much stomach trouble and feel that I need a moderately long fast, but as I also have organic heart disease, I am in some doubt as to whether I should take it. What would you advise? **ANXIOUS.**

Much depends upon the weight

**Take a Look at Your Tongue**

If you aren't feeling just right, go to the mirror and look at your tongue. That coated tongue tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach and dizzy spells; why you have no appetite and can't sleep. Try Tanlac and see how much the first bottle helps you. The cost is less than 2c a dose.

**A warm, clean home**  
That's the beauty of Gas fuel

You'll have clean, comfortable, care-free heating all winter long when you heat your home with gas fuel. And there'll be no soot or dirt.

For the new gas-fired heating systems supply pure, warm air without attention or bother. There is no need of going into the basement. A little electrical control upstairs automatically takes care of the furnace.

So buy a good gas-fired furnace. Have it installed correctly. For that means long years of economical operation. But remember—there's little economy in a cheap furnace installation. So talk to our gas heating specialist first, for he'll gladly advise you about specifications that insure economical and efficient gas heating

## BARBIERI TO COACH LOCAL GRID ELEVEN

The All-Richmonds, confident of the success of the team which was organized only a few weeks ago, will begin intensive practice tonight in the R. T. H. S. gymnasium. Ernie Barbieri has been secured to coach the local team and he plans to give them a good workout in signal practice.

The team will meet in the gym tonight at 6:30 o'clock and John Walker, manager, is anxious to have all members present. Now that the squad is fully equipped with suits and other paraphernalia, the members are showing stronger determination to play football.

To finance the equipment, a dance will be held in East Shore park Saturday night. Tickets for the affair have been selling rapidly. Dennis Shaw's orchestra has been secured to furnish the music for the affair and preparation for a large crowd is being made. Tickets can be secured from any of the members of the team.

## DUCK HUNTING AFTER DARK TO BE CURBED

MARTINEZ, Nov. 15. — Complaints that duck hunters are violating the law in this district by shooting after sundown has resulted in United States Game Warden George Tonkin being assigned to this district to curb the practice.

With five members of the Association Sportsmen's Club of Contra Costa county, Tonkin combed the marshes in this vicinity last night and came upon two hunters violating the law. They fled from the marshes to an automobile, which they had parked on this highway, and escaped.

T. W. Adams, president of the Sportsmen's Association, has pledged the backing of his organization in Tonkin's efforts to curb illegal hunters.

Recently Tonkin arrested several hunters at Benicia for shooting after sundown. They resisted arrest and are now facing two charges in federal court.

### DAN CUPID VS. JACK KEARNS

If Jack Kearns' operatives had not attached a limousine in which the former Estelle Taylor was riding at Saratoga Springs, it is probable that the Kearns-Dempsey-Rickard battle would not be aired before a Federal judge on November 15.

That was the match which ignited the legal fires which may scorch all three of these former pals when they go into court. Up to the time that the Kearns operatives seized Mrs. Dempsey's car and left her stranded in the country Jack Dempsey had repeatedly told newspaper men that he would take care of Kearns. However, from that moment on, Dempsey became steamed up and at present writing he is still steamed up over that incident.

I doubt very much if Kearns was responsible for this blunder on the part of his hired man.

Kearns is a more subtle worker than this. However, his hired man had attachments to serve and they pasted an attachment on the first piece of Dempsey bric-a-brac that came to hand.

The former Miss Estelle Taylor has always been the crux of the Kearns-Dempsey battles. The original break developed over her influence on Dempsey. Kearns did not want Dempsey to get married at that time as he had hopes of signing Dempsey and Willis.

Later the seizure of her automobile cut Dempsey and Kearns even further apart.

Mrs. Dempsey will not appear in court, of course, when her husband and Jack Kearns start their battle, but her influence on their troubles cannot be denied.

The whole trouble seems to have been that Kearns, shrewd and cosmopolitan, did not recognize Dan Cupid when little Daniel appeared in Dempsey's corner.

Had he recognized that little fellow and welcomed him, instead of antagonizing him, November 15, 1927, would simply be another Tuesday.

### THE BOY BANDIT REPLIES

"My Dear Ed:—

Relative to the article in your column, in which you state that the Joy has been taken out of my name, I wish to inform you that you are all wrong. The more fact that one is able to associate himself with boxers who do the best they can every time they start, whether they win or lose, is enough to fill the heart of any one with joy, and I know that's what happened with the boys present. They tried and lost."

"Must one be condemned because they have lost and lost fairly and honestly? Or must they all be relegated to the scrap-heap because of the fact that they failed to win?"

"You, I know, have a great understanding of fair play as any one I know and that's not your theory any more than it is mine, to cast aside a loser. For example:—

"Johnny Dundee, after twelve months of idleness, made 121 pounds, and boxed fifteen tough hard rounds with one of the best featherweights in the country today, and lost a decision. Dundee wasn't cup up nor staggered in any one of the fifteen rounds; and I think that he made a very, very creditable showing with a boy like Canzonieri, after his long lay-off and making that weight. Nobody expected Dundee to win by a knockout; in fact, everybody thought that Dundee would be stopped; in fact, many of the newspaper experts predicted that.

"Phil Scott came to this country to meet the best we have. Phil Scott was deliberately fouled by Hansen, as every one in the place saw but the referee. Every newspaper man sitting at the ringside in their stories said that he was fouled, still there was no mention made of the foul by the referee, and when Scott arose he was knocked down four times before the fight was stopped, which is evidence of his gameness, whether he can fight or not. He got up and took it. That is more than can be said about a few of our GREAT heavyweights.

### DEFENDS YALE OKUN'S SHOWING

"Surely, you can't say that Yale Okun was disgraced in his fight with Lomski. That was one of the best fights that has ever been seen in Madison Square Garden. Okun never once took a back-step from Leo Lomski, and the finish was given as much, if not more, than he received, which is an indication that there are great possibilities in this heavyweight from the east side, and predicts before the summer comes around this young Jewish light heavyweight will be almost to the top of the light heavyweight class, if not at the top.

"Mike McTigue's contest with Mickey Walker was a great win for Walker. Now, I do not wish to take any praise away from the middleweight champion of the world, but carelessness cost the fight for Mike. Just plain, downright carelessness; something that probably will never happen again in the boxing ring.

"McTigue was so positive that he would knock out Walker that he disdained even to brush aside the swings of the middleweight champion, and the result you all know.

"Just as a reminder, Ed, keep the 'T' in my name as often as you write it, and any time you mention the names of the boxers whom I represent, you are doing me a great favor, whether it's good, bad or indifferent. Please oh, please, don't omit the names! Yours very truly,

"JAMES J. JOHNSON."

### McKECHNIE GETS ANOTHER CHANCE

Bill McKechnie, former leader of the Pirates, is getting a second chance. He was named manager of the St. Louis Cardinals yesterday to succeed Bob O'Farrell, Redbird catcher, who still remains with the club in the capacity of first string backstop.

McKechnie deserves another wallop at piloting a big league club, if for no other reason than to vindicate himself after the unpleasantness of the 1926 season. Following a horrible session of internal politics, during which Max Carey, Babe Adams and Carson Bigbee drew their unconditional release from the Pittsburgh club, McKechnie was released as manager. Fred Clarke, Sam Dreyfus, Barney Dreyfus, and McKechnie were forever at loggerheads in the direction of the club, with the result that the Bucs missed a pennant they should have won.

George A. Elgar, who moved here recently from San Leandro, will erect a one-story cottage and garage on the east side of Thirty-second street, between Clinton and Garvin avenues, at a cost of \$3500, according to a building permit issued yesterday by City Building Inspector A. J. Hurley.

## INTEREST KEEN IN EL CERRITO BOUTS FRIDAY

Chick Roach, the Vallejo middleweight, and Gene Cline, of Fresno, are reported in hard training for Friday night's ten round main event at El Cerrito. The boys in these parts that like boxing have taken a great interest in Rossi's main bout, from all outlooks there will be a big house on hand to see the fellows off. While there are five other fast bouts below the top feature, the chief interest lies in the Roach and Cline squabble. These men are as even as two peas in a pod, it is said, and they have already fought some half-dozen battles elsewhere and neither thus far can boast of a victory.

In their long ring careers neither has ever taken a full count so it looks like a cinch these two big fellows will step a fast ten rounds that will go the full distance. Roach is said to be a great fighter. He never backs up but keeps boring in and throwing punches every minute that he is in the ring. As the fans here know what Cline can do, from his great fight with Pete Kievers they know that Cline is sure to do his share of the mixing.

The Manuel Vasquez and Charlie Actis feud will be the real fight of the night. Both of these boys are local favorites. Actis beat Vasquez one night but Manuel always claimed he was out of the running that night when he turned his ankle. He expects to stop Actis Friday night and even up the score.

Johnny Lawson has a win over Johnny Gomez of El Cerrito and this is another in which there will be real fighting to turn the tables. Gomez always insisted that he was sick when Lawson beat him at Oakland but will be fit this time and give Lawson a facing.

Joe Vierra, the little fighting Portuguese, who never fails to please has to take on Sammy Alcanzar all over again. They fought a great draw once and picking a winner is like tossing a coin.

Billy Limer will mix with Emil Cabellero of Stockton whom they say is a real battler and Lawrence Guiffre will fight Tommy

## OILERS ROLL 'EM HIGH IN OAK LEAGUE

The Standard Oil shipping office team took 2 points from C. C. Brown's at Oakland in the Oakland league. This win puts the Oilers in a tie for first place with the Laurens-Turned. The Oilers rolled 971 which is high scores in that league so far. High scores were rolled by J. Delaer 582; Fayer 566; P. Bultschach 542; J. Murray, 484; G. Westone, 524. This 974 game is good rolling for the Standard men.

Tschool girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling, because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

## AILMENTS OF THE HEART QUICKLY RELIEVED

Taft, Calif. April 19, 1927. Fong Wan Herb Co., Oakland, Calif.  
Gentlemen,  
I suffered from Leukemia of the Heart, Enlargement, Pain and High Blood Pressure. The pain extended to my back and left arm. I tried many local physicians, but found no relief at all. After I had seen your advertisement about overcoming Heart Trouble I decided to write to you for Herbs. Your Herb treatment is indeed wonderful. When I had finished taking a four-week supply of the herbs, all my pain had left me. You deserve unlimited praise for what you have done for me. I shall continue to take the herbs until I am certain that I have completely recovered and am sound and healthy in every respect.  
Yours very truly,

## Program Feature Of Lions Meet

Jazz orchestra music and singing by members of big time vaudeville acts featured the entertainment for the Richmond Lions club yesterday. The program was arranged and the talent secured by H. H. Mylander, chairman of the day.

With the exception of a short talk by District Deputy MacDonald of Oakland, the entire program was devoted to the entertainment. The dining room of the Hotel Carquinez was filled with the members and those of other clubs and guests.

Gamble Brothers, drum and saxophone artists, the Harrington Sisters, in songs and Frank Richardson in novelty songs featured the program. Failure on the part of members to answer appropriate questions on Contra Costa county as propounded by Mylander caused many fines to drop in the "soak" box.

# Camel

One of life's great pleasures is smoking

Camels give you all of the enjoyment of choice tobaccos. Is enjoyment good for you? You just bet it is.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.
